

Lithium-ion Motive Power Batteries

Pallet Jack Batteries

Benefits

- LiFePO4 (Lithium Iron Phosphate) Chemistry
- Allows opportunity charging without reducing battery life
- Delivers fast charging times for increased operation efficiency
- Designed for rigorous and heavy day-in and day-out operations
- Built to deliver reliable, consistent power on demand

Features

- Recharges battery in three hours or less from fully discharged state
- Built-in state of charge indicator for quick battery status identification
- Optional rubber bumpers can increase width by one inch to accommodate application requirements
- Ability to provide up to 300 pounds of counterweight in addition to actual battery weight

Applications

- Pallet Jacks
- Delivery Trucks
- Cold Storage
- High Demand

Battery Specifications					
Volts	AH	Length (in.)	Width (in.)	Height (in.)	Weight (lb.)
24	120	25.19	7.44	26.25	120

Part Numbers	
Battery	24V144LI-45BI
Charger	DL2445-VL
Optional CW	CW-LITH-PACK

Charger Specifications		
Volts	Amps	Max Amp Draw
110	45	11.5

Power Cord for Easy Charging
